

The Dawn of a New Era in Competitive Telecom ... Maybe

Matt Stein, CNOC President and Chairman, and Distributel CEO, will share his thoughts and insights on the various changes and challenges the telecommunications industry experienced this year.

From CRTC decisions that significantly altered wholesale broadband rates and interconnection frameworks, to the upcoming decision that will decide whether MVNOs will be allowed to bring competition to the wireless market - how will these rulings impact the Canadian consumer, independent service providers, and the competitive landscape?

Will this truly be the dawn of a new era in the competitive telecom arena or will we continue to be confined to the same old system and face the same battles we face today as consumers and service providers?

Join Matt for a thought-provoking discussion.
