

## **Fireside Chat with Konrad von Finckenstein**

Wire Report editor, Anja Karadeglija, will ask former CRTC chairman Konrad von Finckenstein about the most significant regulatory developments facing ISPs, including what the outcome of the federal election campaign might bring. They'll also dig into the broadcast and telecom act legislative review, and major regulatory files affecting the industry, including the CRTC's August wholesale rate decision and resulting appeal, and the upcoming wireless policy review - including the possibility of mandated MVNOs.
